

Hazelvalley Family Practice

Privacy Notice for Patients

Data Protection Privacy Notice for Patients

Introduction

This privacy notice lets you know what happens to any personal data that you give to us, or any information that we may collect from you or about you from other organisations.

This privacy notice applies to personal information processed by or on behalf of the practice.

This Notice explains

- Who we are and how we use your information.
- Information about our Data Protection Officer
- What kinds of personal information about you we hold and what information we use (process)
- The legal grounds for processing your personal information (including when we share it with others)
- What to do if your personal information changes
- For how long your personal information is retained/stored by us
- What your rights are under Data Protection laws

The General Data Protection Regulation (GDPR) and the Data Protection Act 2018 (DPA18) became law on 25th May 2018. The GDPR is a single EU-wide regulation on the protection of confidential and sensitive information and the DPA18 implements the regulations into comprehensive UK legislation. Following the decision for the UK to leave the European Union and following the end of the transition period, from January 1st, 2021 the UK will be subject to an Adequacy Agreement which will allow data to continue to be shared with European Union Countries without further safeguarding being necessary. This is for a period of four months to allow the European Commission suitable time to grant the UK with adequacy status, meaning they have met the required standards in ensuring data transfers to and from the UK are safe. All references to GDPR will now be referred to as UK GDPR.

For the purpose of applicable data protection legislation (including UK GDPR) and the Data Protection Act 2018 the practice responsible for your personal data, and referred to as the Data Controller, is Hazelvalley Family Practice.

This Notice describes how we collect, use, and process your personal data, and how in doing so, we comply with our legal obligations to you. Your privacy is important to us, and we are committed to protecting and safeguarding your data privacy rights.

How we use your information and the law

Hazelvalley Family Practice will be the “Data Controller” of your personal data.

We collect basic personal data about you and location-based information. This includes name, address, contact details (such as email address and mobile number etc.)

We will also collect sensitive confidential data known as “special category personal data”, in the form of health information, religious beliefs, (if required in a healthcare setting) ethnicity, sexuality etc. that are linked to your healthcare; we may also receive this information about you from other health providers or third parties.

Your rights over your personal data

As an individual you have the following rights over your personal:

Right to be informed – you have the right to be informed on how we handle, process, and share your personal information; this privacy notice ensures as a practice we satisfy this right.

Right to access your personal information– you can request access to and/or copies of the personal data we hold about you, free of charge (subject to exemptions) within one calendar month. Such requests can be made verbally or in writing, but we do request that you provide us with adequate information to process your request, such as providing full name, address, date of birth, NHS number and details of your request and, where necessary, any documents to verify your identity.

On processing a request there may be occasions when information may be withheld if we as a practice believe that releasing the information to you could cause serious harm or distress. Information may also be withheld if another person (i.e., third party) is identified in the record, and they do not want their information disclosed to you. However, if the other person mentioned in your records was acting in their professional capacity in caring for you, in normal circumstances they could not prevent you from having access to that information.

To request a copy or request access to information we hold about you and/or to request information to be corrected if it is inaccurate, please contact: Dr Mannan 7-9 MANCHESTER ROAD, HASLINGDEN, ROSSENDALE, LANCASHIRE BB4 5SL

Right to rectification - The correction of personal data when incorrect, out of date or incomplete will be acted upon within one calendar month of receipt of such a request. Please ensure Hazelvalley Family Practice has the correct contact details for you at all times.

Right to erasure - Under Article 17 of the UK GDPR individuals have the right to have personal data erased. This is also known as the ‘right to be forgotten’. The right is not absolute and only applies in certain circumstances, for example when your personal data is no longer necessary for the purpose which it was originally collected or processed it for of if you wish to withdraw your consent after you have previously given your consent.

Right to restrict processing – Article 18 of the UK GDPR gives individuals the right to restrict the processing of their personal data in certain circumstances. This means that you can limit the way

that the practice uses your data. This is an alternative to requesting the erasure of your data. Individuals have the right to restrict the processing of their personal data where they have a particular reason for wanting the restriction.

Right to data portability - The right to data portability gives individuals the right to receive personal data they have provided to the Practice in a structured, commonly used, and machine-readable format (i.e., email, upload to a portable device etc.).

Right to object to processing – you have the right to object to processing, however please note if we can demonstrate compelling legitimate grounds which outweighs your interest, then processing can continue. If we did not process any information about you and your health care it would be very difficult for us to care and treat you.

Rights in relation to automated decision making and profiling - Automated individual decision-making is a decision made by automated means (i.e., a computer system) without any human involvement. If any of the processes we use rely on automated decision making, you do have the right to ask for a human to review any computer-generated decision at any point.

Why we need your information.

The health care professionals who provide you with care maintain records about your health and any treatment or care you have received previously. These records help to provide you with the best possible healthcare and treatment.

NHS health records may be electronic, paper-based or a mixture of both. We use a combination of working practices and technology to ensure that your information is kept confidential and secure.

Records about you may include the following information:

- Details about you, such as your address, your carer or legal representative and emergency contact details.
- Any contact Hazelvalley Family Practice has had with you, such as appointments, clinic visits, emergency appointments.
- Notes and reports about your health.
- Details about your treatment and care.
- Results of investigations such as laboratory tests, x-rays etc.
- Relevant information from other health professionals, relatives or those who care for you.
- Contact details (including email address, mobile telephone number and home telephone number)

To ensure you receive the best possible care, your records are used to facilitate the care you receive, including contacting you. Information held about you may be used to help protect the health of the public and to help us manage the NHS and the services we provide. Limited information may be used within the GP practice for clinical audit to monitor the quality of the service we provided.

How we lawfully use your data.

We need your personal, sensitive, and confidential data in order to provide you with healthcare services as a General Practice, under the UK GDPR we will be lawfully using your information in accordance with:

Article 6 (1)(e) processing is necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller.

Article 9 (2) (h) processing is necessary for the purposes of preventive or occupational medicine, for the assessment of the working capacity of the employee, medical diagnosis, the provision of health or social care or treatment or the management of health or social care systems.

This Privacy Notice applies to the personal data of our patients and the data you have given us about your carers/family members.

Risk Stratification

Risk stratification data tools are increasingly being used in the NHS to help determine a person's risk of suffering a condition, preventing an unplanned or (re)admission and identifying a need for preventive intervention. Information about you is collected from several sources including NHS Trusts and from this GP Practice. The identifying parts of your data are removed, analysis of your data is undertaken, and a risk score is then determined. This is then provided back to your GP as data controller in an identifiable form. Risk stratification enables your GP to focus on initiatives for preventing ill health and not just the treatment of sickness, so being far more proactive in an ever-changing health climate. As a result of risk stratification, your GP may be able to offer you additional services. Please note that you have the right to opt-out of your data being used in this way in most circumstances; please see appendix A for further information and contact the practice if you wish to discuss opt-out preferences.

Individual Risk Management at a GP practice level however is deemed to be part of your individual healthcare and is covered by our legal powers above.

Our data processor for Risk Stratification is: Aristotle, Eclipse Prescribing Safety

Medicines Management

The Practice may conduct Medicines Management Reviews of medications prescribed to its patients. This service performs a review of prescribed medications to ensure patients receive the most appropriate, up to date and cost-effective treatments. The reviews are carried out by the Clinical Commissioning Group's Medicines Management Team under a Data Processing contract with the Practice.

Patient Communication

The Practice would like to use your name, contact details, and email address to inform you of NHS services, or provide information about your health/information to manage your healthcare or information about the management of the NHS service. There may be occasions where authorised research facilities would like you to take part in research in regard to your particular health issues, to try and

improve your health. Your contact details may be used to invite you to receive further information about such research opportunities, but you must give your explicit consent to receive messages for research purposes.

Safeguarding

The Practice is dedicated to ensuring that the principles and duties of safeguarding adults and children are holistically, consistently, and conscientiously applied with the wellbeing of all patients at the heart of what we do.

Our legal basis for processing information for safeguarding purposes, as stipulated in the UK GDPR is:

Article 6(1)(e) ‘...exercise of official authority...’.

For the processing of special categories data, the basis is:

Article 9(2)(b) – ‘processing is necessary for the purposes of carrying out the obligations and exercising specific rights of the controller or of the data subject in the field of employment and social security and social protection law...’

Categories of personal data

The data collected by Practice staff in the event of a safeguarding situation, will be minimised to include only the personal information as is necessary in order to handle the situation. In addition to some basic demographic and contact details, we will also process details of what the safeguarding concern is. This is likely to be special category information.

Sources of the data

The Practice will either receive or collect information when someone contacts the organisation with safeguarding concerns, or we believe there may be safeguarding concerns and make enquiries to relevant providers.

Recipients of personal data

The information is used by the Practice when handling a safeguarding incident or concern. We may share information accordingly to ensure duty of care and investigation as required with other partners such as local authorities, the police or healthcare professionals (i.e., their GP or mental health team).

Research

Clinical Practice Research Datalink (CPRD) collects anonymised patient data from a network of GP practices across the UK. Primary care data is linked to a range of other health related data to provide a fully representative UK population health dataset. You can opt out of your information being used for research purposes at any time (as detailed in Appendix A) and full details on CRPD can be found here:

<https://cprd.com/transparency-information>

The legal bases for processing this information.

CPRD do not hold or process personal data on patients; however, NHS Digital may process ‘personal data’ for use as an accredited ‘safe haven’ or ‘trusted third-party’ within the NHS when linking GP data with data from other sources. The legal bases for processing this data are:

- Medicines and medical device monitoring: *Article 6(e) and Article 9(2)(i) - public interest in the area of public health*
- Medical research and statistics: *Article 6(e) and Article 9(2)(j) - public interest and scientific research purposes*

Any data CPRD hold or pass onto bona fide researchers, except for clinical research studies, will have been anonymised in accordance with the Information Commissioner's Office Anonymisation Code of Practice. We will hold data indefinitely for the benefit of future research, but studies will normally only hold the data we release to them for twelve months.

Third party processors

In order to deliver the best possible service, the practice will share data (where required) with other NHS bodies such as other GP practices and hospitals. In addition, the practice will use carefully selected third party service providers. When we use a third-party service provider to process data on our behalf then we will always have an appropriate agreement in place to ensure that they keep the data secure, that they do not use or share information other than in accordance with our instructions and that they are operating appropriately. Examples of functions that may be carried out by third parties include:

- Companies that provide IT services & support, including our core clinical systems; systems which manage patient facing services (such as our website and service accessible through the same); data hosting service providers; systems which facilitate appointment bookings or electronic prescription services; document management services etc.
- Delivery services (for example if we were to arrange for delivery of any medicines to you).
- Payment providers (if for example you were paying for a prescription or a service such as travel vaccinations).

Further details regarding specific third-party processors can be supplied on request to the practice.

How we maintain the confidentiality of your records

We are committed to protecting your privacy and will only use information collected lawfully in accordance with:

- Data Protection Act 2018
- The General Data Protection Regulations 2016 (UK GDPR)
- Human Rights Act 1998
- Common Law Duty of Confidentiality
- Health and Social Care Act 2012
- NHS Codes of Confidentiality, Information Security and Records Management
- Information: To Share or Not to Share Review

Every member of staff who works for an NHS organisation has a legal obligation to keep information about you confidential.

We will only ever use or pass on information about you if others involved in your care have a

genuine need for it. We will not disclose your information to any third party without your permission unless there are exceptional circumstances (i.e., life or death situations), where the law requires information to be passed on and/or in accordance with the information sharing principle following Dame Fiona Caldicott's information sharing review (Information to share or not to share) where "The duty to share information can be as important as the duty to protect patient confidentiality." This means that health and social care professionals should have the confidence to share information in the best interests of their patients within the framework set out by the Caldicott principles.

Our practice policy is to respect the privacy of our patients, their families, and our staff and to maintain compliance with the UK GDPR and all UK specific Data Protection Requirements. Our policy is to ensure all personal data related to our patients will be protected.

All employees and sub-contractors engaged by our practice are asked to sign a confidentiality agreement. The practice will, if required, sign a separate confidentiality agreement if the client deems it necessary. If a sub-contractor acts as a data processor for Hazelvalley Family Practice an appropriate contract will be established for the processing of your information.

In certain circumstances you may have the right to withdraw your consent to the processing of data. Please contact the Dr Mannan in writing if you wish to withdraw your consent. In some circumstances we may need to store your data after your consent has been withdrawn to comply with a legislative requirement.

Some of this information will be held centrally and used for statistical purposes. Where we do this, we take strict measures to ensure that individual patients cannot be identified. Sometimes your information may be requested to be used for research purposes – Hazelvalley Family Practice will always gain your consent before releasing the information for this purpose in an identifiable format. In some circumstances you can Opt-out of Hazelvalley Family Practice sharing any of your information for research purposes.

With your consent we would also like to use your information

There are times that we may want to use your information to contact you or offer you services, not directly about your healthcare, in these instances we will always gain your consent to contact you. We would however like to use your name, contact details, and email address to inform you of other services that may benefit you. We will only do this with your consent. There may be occasions where authorised research facilities would like you to take part on innovations, research, improving services or identifying trends, you will be asked to opt into such programmes if you are happy to do so.

At any stage where we would like to use your data for anything other than the specified purposes and where there is no lawful requirement for us to share or process your data, we will ensure that you have the ability to consent and opt out prior to any data processing taking place.

This information is not shared with third parties or used for any marketing and you can unsubscribe at any time via phone, email or by informing the practice.

Where we store your electronic information

All the personal data we process is processed by our staff in the UK however for the purposes of IT

hosting and maintenance this information may be located on servers within the European Union.

No third parties have access to your personal data unless the law allows them to do so and appropriate safeguards have been put in place such as a Data Processing agreement. We have a Data Protection regime in place to oversee the effective and secure processing of your personal and or special category data.

EMIS Web

The Practice uses a clinical system provided by a Data Processor called EMIS. Since June 2019, EMIS commenced storing your practice's EMIS Web data in a highly secure, third party cloud hosted environment, namely Amazon Web Services ("AWS").

The data will remain in the UK at all times and will be fully encrypted both in transit and at rest. In doing this there will be no change to the control of access to your data and the hosted service provider will not have any access to the decryption keys. AWS is one of the world's largest cloud companies, already supporting numerous public sector clients (including the NHS), and it offers the very highest levels of security and support.

Our partner organisations

We may also have to share your information, subject to strict agreements on how it will be used, with the following organisations:

- NHS Trusts/Foundation Trusts
- GP's
- Primary Care Networks
- Integrated Care Systems
- NHS Commissioning Support Units
- Independent Contractors such as dentists, opticians, pharmacists
- Private Sector Providers
- Voluntary Sector Providers
- Ambulance Trusts
- Clinical Commissioning Groups
- Social Care Services
- NHS England (NHSE) and NHS Digital (NHSD)
- Multi Agency Safeguarding Hub (MASH)
- Local Authorities
- Education Services
- Fire and Rescue Services
- Police & Judicial Services
- Other 'data processors' which you will be informed of

You will be informed who your data will be shared with and in some cases asked for consent for this to happen when this is required.

Computer System of Choice

This practice operates a Clinical Computer System of Choice on which NHS Staff record information

securely. This information can then be shared with other clinicians so that everyone caring for you is fully informed about your medical history, including allergies and medication.

To provide around the clock safe care, unless you have asked us not to, we will make information available to our Partner Organisations (as listed above). Wherever possible, their staff will ask for your consent before your information is viewed.

Shared Care Records

To support your care and improve the sharing of relevant information to our partner organisations when they are involved in looking after you, we will share information to other systems. You can opt-out of this sharing of your records with our partners at any time if this sharing is based on your consent.

We may also use external companies to process personal information, such as for archiving purposes. These companies are bound by contractual agreements to ensure information is kept confidential and secure. All employees and sub-contractors engaged by our practice are asked to sign a confidentiality agreement. If a sub-contractor acts as a data processor for Hazelvalley Family Practice an appropriate contract will be established for the processing of your information.

Sharing your information without consent

We will normally ask you for your consent, but there are times when we may be required by law to share your information without your consent, for example:

- where there is a serious risk of harm or abuse to you or other people.
- Safeguarding matters and investigations
- where a serious crime, such as assault, is being investigated or where it could be prevented.
- notification of new births
- where we encounter infectious diseases that may endanger the safety of others, such as meningitis or measles (but not HIV/AIDS)
- where a formal court order has been issued
- where there is a legal requirement, for example if you had committed a Road Traffic Offence.

How long we store your information for

We are required under UK law to keep your information and data for the full retention periods as specified by the NHS Records management code of practice for health and social care and national archives requirements.

More information on records retention can be found in the NHS Records Management Code of Practice 2020

https://www.nhs.uk/media/documents/NHSX_Records_Management_Code_of_Practice_2020_3.pdf

Destruction

This will only happen following a review of the information at the end of its retention period. Where data has been identified for disposal, we have the following responsibilities:

- to ensure that information held in manual form is destroyed using a cross-cut shredder or

contracted to a reputable confidential waste company SHRED IT that complies with European Standard EN15713 and obtain certificates of destruction.

- to ensure that electronic storage media used to store, or process information are destroyed or overwritten to national standards.

Primary Care Networks

The objective of Primary Care Networks (PCNs) is for group practices working together to create more collaborative workforces which ease the pressure of GP's, leaving them better able to focus on patient care. The aim is for all areas within England to be covered by a PCN.

Primary Care Networks form a key building block of the NHS long-term plan. Bringing general practices together to work at scale has been a policy priority for some years for a range of reasons, including improving the ability of practices to recruit and retain staff; to manage financial and estates pressures; to provide a wider range of services to patients and to integrate with the wider health and care system more easily.

All GP practices are expected to come together in geographical networks covering populations of approximately 30–50,000 patients and take advantage of additional funding attached to the GP contract.

This means the practice may share your information with other practices within the PCN to provide you with your care and treatment.

Hazelvalley Family Practice is a member of the Rossendale West PCN which includes the following local GP Practices:

Haslingden Healthcare
Rossendale Valley Medical Practice
St James Medical Centre
Ilex View Medical Practice
PWE Fairmore

Rossendale West PCN also works operationally and strategically with Rossendale East PCN which includes the following local GP practices:

Waterfoot Medical Practice
Irwell Medical Practice
Whitworth Medical Centre

Access to your personal information

You have a right under the Data Protection legislation to request access to view or to obtain copies of what information Hazelvalley Family Practice holds about you and to have it amended should it be inaccurate. For any request you should:

- Make your request directly to the practice. (For information from a hospital or other Trust/ NHS organisation you should write directly to them).
- Be aware that there is no charge to have a copy of the information held about you.
- Be aware that information must be released to you within one calendar month (unless in exceptional circumstances, which you will be informed of a part of the process)

- Be aware you may be asked for key information to process the request (for example full name, address, date of birth, NHS number and details of your request) so that your identity can be verified, and your records retrieved.

What to do if your personal information changes

You should tell us so that we can update our records as we are required to keep accurate and up-to-date records at all times. Please contact the Practice as soon as any of your details change, this is especially important for changes of address or contact details (such as your mobile phone number). The practice will from time to time ask you to confirm that the information we currently hold is accurate and up to date.

Objections/Complaints

Should you have any concerns about how your information is managed at the practice, please contact Charlotte Brown, Practice Manager or Dr Mannan in the first instance. If you are still unhappy following a review of your concerns by the practice, you have the right to lodge a complaint with a supervisory authority, the Information Commissioner's Office using the contact details below:

Information Commissioner's Office
Wycliffe House
Water Lane
Wilmslow
Cheshire
SK9 5AF

Tel: 01625 545745
<https://ico.org.uk/>

If you are happy for your data to be used for the purposes described in this privacy notice, then you do not need to do anything. If you have any concerns about how your data is shared, then please contact the Practice Data Protection Officer, Caldicott Guardian or IG Lead.

If you would like to know more about your rights in respect of the personal data that we hold about you, please use the contact details below:

IG Lead:
Dr Mannan

Caldicott Guardian:
Dr Mannan

Data Protection Officer:
Charlotte Brown

Appendix A: National Data Opt-Out Facility

You can choose whether your confidential patient information is used for research and planning. The practice must evidence compliance with National Data Opt-Out requirements by September 30th 2021.

Who can use your confidential patient information for research and planning?

It is used by the NHS, local authorities, university and hospital researchers, medical colleges and pharmaceutical companies researching new treatments.

Making your data opt-out choice.

You can choose to opt out of sharing your confidential patient information for research and planning. There may still be times when your confidential patient information is used: for example, during an epidemic where there might be a risk to you or to other people's health. You can also still consent to take part in a specific research project.

Will choosing this opt-out affect your care and treatment?

No, your confidential patient information will still be used for your individual care. Choosing to opt out will not affect your care and treatment. You will still be invited for screening services, such as screenings for bowel cancer.

What should you do next?

You do not need to do anything if you are happy about how your confidential patient information is used.

If you do not want your confidential patient information to be used for research and planning, you can choose to opt out securely online or through a telephone service. You can change your choice at any time. To find out more or to make your choice visit <https://www.nhs.uk/your-nhs-data-matters/> or call 0300 303 5678.

Please discuss with the IG Lead or Practice Manager for further details.
